PROFESSIONAL SUMMARY

Cum Laude Information Systems graduate with a strong foundation in software development, database management, systems analysis, and data-driven decision-making. Currently pursuing a BCom Honours in Information Systems at the University of Fort Hare while working as an Academic Support Tutor.

Skilled in programming (Java, C#, Python), web and database development, and systems analysis and design, with hands-on project experience across the full software development lifecycle. Currently expanding technical expertise through specialised 5G Fixed Wireless Access (FWA) training with MICT SETA and The Cortex Hub.

Seeking an entry-level opportunity in an IT internship, graduate development programme, software development, or technology consulting environment.

EDUCATION

BCom Honours in Information Systems *To be completed 2026*
University of Fort Hare

- Focus areas: Information Systems Research, Digital Transformation, Enterprise Systems, IT Management, Advanced Information Systems Concepts

BCom in Information Systems *Completed 2025*
University of Fort Hare

- Graduated Cum Laude with a final average of 78%
- Ranked 1st in Information Systems class and awarded the First Position Certificate
- Relevant coursework: Systems Analysis and Design, Database Management Systems, Business Intelligence, Information Systems Strategy, Software Development, Project Management, E-Commerce, Information Security, Data Analytics

PROFESSIONAL EXPERIENCE

Student Tutor and Academic Supporter *2024 – Present*
University of Fort Hare

- Facilitate tutorials and academic support sessions for 30+ undergraduate students per semester in Systems Analysis and Design
- Break down complex Information Systems concepts into practical, exam-ready explanations, contributing to improved student understanding and pass rates
- Provide one-on-one and group mentoring, guiding students through assessment preparation and academic planning
- Recognised by faculty for consistent engagement and reliability in supporting undergraduate academic success

PROJECTS

JobConnectSA – Graduate and SME Recruitment Platform *Academic Web Development Project*
Developed a digital solution aimed at reducing graduate unemployment by connecting SMEs with qualified graduates.

- Co-developed a web-based platform connecting Small and Medium Enterprises (SMEs) with graduates seeking employment
- Contributed to database schema design, front end and backend logic within a team of 5 members
- Built core functionality enabling job posting, graduate profiling, and application management
- Result: presented to faculty panel, with an external examiner present, achieved distinction-level grade
- Technologies used: HTML, CSS, JavaScript, PHP, MySQL

PROFESSIONAL DEVELOPMENT

5G Fixed Wireless Access (FWA) Training Programme *June – September 2026*

The Cortex Hub | MICT SETA

- Key learning areas: 5G Network Architecture, Radio Access Networks (RAN), Core Network Fundamentals, Beamforming and Network Slicing, Wireless Communication Technologies, Network Monitoring and Support, IoT, Industry 4.0 Technologies

UCT–Cortex Hub Fintech Lab Winter School *2026*

- Selected to participate in a fintech innovation programme focused on digital finance, entrepreneurship, and emerging technologies

TECHNICAL SKILLS

- Programming: Java, C#, Python
- Web Development: HTML, CSS, Bootstrap, ASP.NET
- Database Fundamentals: SQL Server, MySQL
- Systems Analysis & Design | Data Structures & Algorithms | Excel Analytics | GitHub
- Microsoft Office: Word, Excel, PowerPoint

CORE SKILLS

- Research and systems thinking | Analytical and critical thinking | Problem-solving in technical environments
- Business process analysis | Requirements gathering | Information systems development
- Collaboration and communication | Academic tutoring and mentorship | Data-driven decision making
- Awareness of digital transformation in African contexts

LANGUAGES

English (Fluent) | isiXhosa (Fluent) | isiZulu (Fluent) | Sesotho (Basic)
